FELIX FRANKFURTER--MOST DANGEROUS MAN EVER TO SIT ON SUPREME COURT!

Sincere Americans old enough to know what the United States was thirty years ago realize that a power which they do not fully understand has taken control of our country and is remaking it to fit the Marxist European pattern. Cunning Marxists, like termites, have reached the most influential spots in our government, National and State. The increasing trend is toward bankruptcy, bloodshed and slavery. Very few feel they are in position or have the courage to speak out and expose the plotters for fear they will be unpopular, or that the enemy will retaliate, causing them to suffer materially.

It is silly to coast along while these Anti-Christian Marxists condition us for concentration camps. The master minds of the invisible government must be exposed. A front-page article in the Chicago Tribune of May 29, 1950, identified three men as the Secret Government of the U. S. — Felix Frankfurter, Herbert Lehman, and Henry Morgenthau Jr.

Frankfurter, at a dinner in 1950, in answer to a question, stated "the real rulers of a government are unknown." Here is a man, one of the main incorporators of the A. C. L. U. who for twenty years was one of the most active in this organization which went to courts and defended communists. He now sits on the Supreme Court.

Felix Frankfurter is to the U. S. what Harold Lasky was to England and Lazar Kaganovich is to the Soviet Union. These three king-pin Jews have placed communists in the governments of their respective countries. Lazar Kaganovich trained and placed hundreds of communists in key spots in the Soviet Union including G. M. Malenkov, N. S. Khrushchev, M. A. Bulganin.

While teaching law at Harvard, Frankfurter had as his secretary a known communist, and turned out many students with bright communist minds. Later when he went to Washington under F. D. R., he packed the government with hundreds of communists, many graduates of the Harvard Law School. One of the bright young men Frankfurter placed was Alger Hiss. He also placed Wyzanski as Federal Judge in Mass. who has lately caused an uproar because of his leniency towards communists and dope peddlers. He placed Attorney General Biddle, Stimpson, as Secretary of War and Knox as Secretary of the Navy. He also placed Dean Acheson as Assistant Secretary of State where Acheson was influential in turning China over to communism. Two other students he took care of were Robert Lovett as Assistant Secretary of War and John J. McCloy as High Commissioner of Germany. A few other proteges were Nathan Witt, Lee Pressman, Jerome Frank & Lauchlin Currie.

Pegler, in his column of July 31, 1948, stated: "A man who served with Felix in one of the bureaus in Washington in the first World War told me not long ago that Felix once said to him and some associates that he envisioned a situation in which a small group of influential men, by audacity and initiative, could become the rulers of the United States by ruling the President."

Frankfurter's brother, Otto, is an ex-con-

vict who served a term in a West Virginia penitentiary and a term of six years in the Iowa State Pen. He served these under other names. He was later appointed by Paul G. Hoffman to have charge of the Paris Office of the Economic Cooperation Administration (re-named Marshall Plan) which is still giving away billions of the tax-payers money.

When Alger Hiss sat at the side of the sick and weakened F. D. R., at Yalta, advising him to turn over Poland, East Germany, Estonia, Latvia, Lithuania, and Manchuria to bloody Stalin, he was under orders of his former teacher, Frankfurter, Justice of the Supreme Court. This job alone may result in the enslavement of the U. S. Just before F. D. R. was elected in 1932, Frankfurter stated that if FDR were elected, the Soviet Union would be recognized by the U. S. Soon after, FDR accepted Maxim Litvinoff's (Finkelstein) promise not to promote communism in the U. S., the Soviet Union was recognized just as it was about to fall apart. Later when Germany was about to conquer the Soviet's and end Communism, Frankfurter, Rabbi Wise, Henry Morgenthau Jr. and many other powerful Jews pressured FDR into bringing war on Germany and again saving Communism.

The following are excerpts from a report compiled by the American Vigilant Intelligence Federation, May 1934.

This is the opening paragraph of a thumb-nail sketch on Felix Frankfurter in the March 1934, number of the "American Magazine", which goes on to say:

"It is said in Washington that you can't go around a corner without running smack into Frankfurter-taught bright young men.

They are the former pupils of the square-jawed, quick-as-a-trigger Doctor of Laws.

"He has been for a long time on very close terms with President Roosevelt. Backed him during his governorship and worked with him during his Presidential campaign. A noted liberal in domestic affairs and referred to as 'slightly left-wing' in the legal school of thought.

"Some time ago he threw himself full-length into the fight for Sacco and Venzetti. Before that, but with equal fiery interest, he helped the cause of Mooney and Billings, in California. He has a prodigious memory and vitality of intellect that amazes his friends.

"At present he is the George Eastman visiting professor at Oxford, England—but it is whispered in high places that his brain is still working for his friend in the White House."

We have thought best to present the career of FELIX FRANKFURTER as it appears in its public biographical aspect, based upon data furnished by himself to the respective publishers. But to really understand his personality and the political and economic activities that he motivates, we must read between the lines, and find the key in his writings and his comradeships and personal associations.

In passing, let us note that his antecedents and cultural background have been largely international and European. His patronym suggests that his immediate ancestry came from the Judengasse in Frankfurt-am-Main, the Ghetto which produced Amschel Mayer, who founded the banking house of Rothschild. Coming as an immigrant boy to N.Y. at the age of 12, he received his education in the N.Y. schools and finished off in the advance high school of that city, in the College of the City of New York.

The period after the Armistice, found him definitely acting the role of internationalist, representing the Zionist organization before the Peace Conference in Paris, 1919, urging the establishment of a home land for the Jews in Palestine, and "minority representation" in all governments signatory to the Versailles treaty.

The reader well may ask, how a man of foreign birth and cultural background, advocating the principle of "extra-territoriality", and committed to the policy of building up an autonomous homeland for his own race, may be an un-prejudiced champion of American national policies. The answer is plain—he just isn't.

Elbowing his way into the inner circles of government, never by election by citizen suffrages, but always by appointment, through some political barter. FRANKFURTER is a symbol of what we should avoid in choosing our American mouthpieces.

The Industrial Defense Assn., Inc., 7 Water St., Boston, Mass., in a bulletin issued in Nov. 1926, lists a few of the subversive activities with which Felix Frankfurter is associated.
